Re: Mississippi Broadcasting Partners
Earth Station Call Sign E060341

Dear Ms. Dortch:

Mississippi Broadcasting Partners (“MBP”), by its attorney, hereby requests correction of the site location street address of the above referenced receive-only earth station. The geographic coordinates listed on the station’s authorization correctly reflect the location of the facility, and all other technical information listed on the authorization accurately reflects the constructed facility. Pursuant to the advice of FCC staff, MBP submits this letter for the purpose of requesting that the street address listed in Section A (Site Location) of the authorization be revised to read:

WABG Television Transmitter Tower
94 TV Station Road
Inverness, MS 38753

MBP notes that the mailing address for any correspondence related to the station and the legal address of the applicant should remain 849 Washington Avenue, Greenville, MS 38701, as noted in the application for the authorization.

If you have any questions on this matter, please contact me.

Very truly yours,

M. Anne Swanson

cc: Mr. Scott Kotler (FCC, *via e-mail*)
