

To Whom it may Concern at the IBFS:

During a round of applications that were submitted for FRN 0001734987 in 2012, there was a typographical error when inputting the address information on call signs E120156 and E120157. Two different addresses on two different lines of an Excel file were combined into an incorrect address on the respective applications. The correct site address for the dishes in question on the two above mentioned call signs is:

71 Parmenter Road

Hudson, MA 01749

The GPS coordinates and all other information was input correctly on the application. We are requesting the international bureau update the addresses in all records of the international bureau including the authorizations in IBFS for the two call signs.

Thank you,

Jeff Staigh
