07/23/2018

Dear Trang,

Thank you very much for your help in determining the E47 emission designation for Mr. Bender's C-band satellite reception system.

That designation is 500MV9W.

Please note that in addition to section 2.201 for the modulation designation symbols, I referred to section 2.202, which I found online, to get the proper format for the bandwidth portion.

Sincerely,

Dallas Yenawine
