EDWIN LANNY NASS
DIRECTOR SPECTRUM MANAGEMENT

May 15, 2019

Ms. Marlene Dortch, Secretary
Federal Communications Commission
445 12th Street, SW
Washington DC 20554

ATTN: International Bureau, Satellite Division

To Whom It May Concern:

Pursuant to FCC *Public Notice* DA 19-278 (April 11, 2019), CBS audited its fixed-satellite service (FSS) 3.7-4.2 GHz (C-Band) earth stations to verify information retrieved from the FCC's International Bureau Filing System (IBFS) database.¹ This audit was conducted by the undersigned and field-verified by CBS engineers at sites throughout the country. With the exceptions noted below, the IBFS data are believed to be accurate.

Based on the results of this effort, this letter seeks to:

- Surrender call sign E6555 (SES-RWL-20070308-00320)
- Repeat a prior request to replace a Condition Code on several licenses.
- Certify the accuracy of all licenses and registrations as stipulated below.
- Provide a Construction Notification for some facilities.

Earth Station E6555

Extensive building reconstruction has required C-Band earth station E6555 to be removed from service. Since that construction will continue for more than a year, we hereby surrender this authorization.

Condition Codes and Construction Notification

As permitted by waiver pursuant to Public Notice DA 18-398 (April 19, 2018), some new or modified C-Band applications were initially filed *without* frequency coordination reports. They were therefore granted with Condition Code 90472 that removes fixed microwave frequency protection. In subsequent pleadings, CBS provided frequency coordination reports and asked to have this Condition be reversed. However, through no fault of CBS, many licenses have not been updated and remain inaccurate. Those call signs are depicted by "Condition Code" in the notes column. This

¹ Pertinent IBFS applicants/licensees include CBS Broadcasting Inc., CBS Communications Services Inc., CBS Television Stations Inc., and Sacramento Television Stations, Inc. (collectively "CBS").

Ms. Marlene Dortch

certification is also intended to serve as a construction notification for any license or registration that may require it.

Certification

In all other respects, the undersigned hereby certifies that with the exception of the above, all information shown on CBS licenses or registrations in IBFS, including any attached exhibits, is true, complete, and correct to the best of his knowledge and belief and has been made in good faith.

Please contact the undersigned with any questions or concerns.

Sincerely,

A handwritten signature in black ink, appearing to read "Dan Ryson".

Daniel G. Ryson
Associate Director of Spectrum Management
