Subject: RE: Important C-Band Filing Follow-Up: Information Requested

Kathleen – thank you for reaching out.

E180699 – There was a clerical error with the underlying license application. There are only two (2) antennas at the registered site.

E191668 should be removed as it is KU-band only.

Best, Ann

Upon a more careful review... it appears Call Sign E180699 is included at the top of the letter, but is not reflected in the corrections. Perhaps that is the issue with my number one below?

Subject: RE: Important C-Band Filing Follow-Up: Information Requested

Ms. Bobeck,

I am making the changes to your authorization based on your filing. I have two questions –

(1) Call Sign E180700 is mentioned twice. Is that a copy and paste error where the call sign needs to change? Or is it an inadvertent duplication?

(2) Call Sign E191668 – you indicate that Antenna ID 4.0 M is a Ku only. I just want to be sure that it should be removed from the registration, since in the registration it is C-band. We don't accept Ku-band receive-only registrations, so I presume I should remove it here. Just wanted to verify.

Thank you,
Kathleen Campbell
