

PLEADING TO CORRECT RECEIVE-ONLY EARTH STATION SITE INFORMATION

To Whom It May Concern:

Reference pending earth station registration for Charter Communications Operating, LLC, FRN 0002526580
Call sign (pending): E180774 in Largo, FL

The application does not have a hemisphere listed for the *latitude*, even though it passed validation. Yet the downloaded IBFS data shows it as a negative number which would place it in the Southern Hemisphere. Given that this a DOMESTIC receive-only station, it's located in the Northern Hemisphere.

Registrant requests the latitude hemisphere be corrected to "N" in the IBFS record.

Sincerely,

Steve Flessner | Manager, FCC Relations | 303.323.6020
