Hi Tanya,

The antenna angle numbers you submitted do not match with our studies.

item E57, antenna elevation in eastern limit, it should be 9.5
item E59, antenna elevation in western limit, it should be 37.8
item E56, antenna azimuth in eastern limit, it should be 104.4
item E58, antenna azimuth in western limit, it should be 221.2

Please submit these numbers, we could update your station filing and get it acceptable for filing.

Thanks,
Trang Nguyen
