**Re: Minnesota Iowa Christian Broadcasting Inc. ("MICB")
Call Sign E181186 (SES-REG-20180626-01925)**

Dear International Bureau:

In response to the Bureau's email of October 21, 2020, please be advised that although the August 3, 2020, Incumbent List and the above-referenced registration for E181186 indicate two 3.8 meter D&H Satellite antennas are in service, in fact only one such antenna is in service at that location. Accordingly, with respect to E181186, MICB is seeking a lump sum reimbursement for one single-feed antenna.

In our review of the other lump sum reimbursement elections submitted for MICB (i.e., for E181185 and E181187), we found no other discrepancies.

Please contact me if any additional information is needed.

Cordially,

/s/ Matthew H. McCormick
