

EXHIBIT 2
(Page 1 of 1)

DOCUMENTATION OF EXEMPTION
FROM FAA NOTIFICATION REQUIREMENTS
Scripps Broadcasting Holdings, LLC.
Tampa, FL

The facility proposed in the attached application is a satellite downlink with the satellite antenna permanently ground mounted. The satellite antenna is a 7.3 meter parabolic reflector, with the center point of the dish mounted 6.4 meters above ground. Thus, the total height of the antenna system is less than 10.1 meters above ground.

According to the FCC TOWAIR utility, there are no airports within 8 kilometers of this site, therefore a 10.1 meter structure at this location would pass slope to any airport. Therefore, pursuant to Section 17.07(b) of the FCC Rules and Section 77.13 of the FAA Rules and Regulations, this downlink facility is exempted from FAA notification requirements.
