Jae Lim - here is the pic where the 3 satellite dishes are located @ the Haynesville Correctional Facility/Center in Haynesville, Virginia. We installed this system in late 2015. Google Earth's latest imagery date is May, 2015 so the dishes were not yet in place.

Let me know if you need anything else.

Sandy Barnett

Google Earth streams the world over wired and wireless networks enabling users to virtually go anywhere on the planet and see places in photographic detail. This is not like any map you have ever seen. This is a 3D model of the real world, based on real satellite images combined with maps, guides to restaurants, hotels, entertainment, businesses and more. You can zoom from space to street level instantly and then pan or jump from place to place, city to city, even country to country.

Get Google Earth. Put the world in perspective.
