E191005 SESREG2018100104638

To whom it may concern:

In working with the FCC to reconcile records in connection with reimbursements to licensees of certain eligible earth stations as part of the C-Band transition, it has been determined that the above-listed licenses are duplicative of other earth station licenses held by Bott Communications, Inc. As such, by this letter, Bott Communications, Inc. hereby requests cancellation of the earth station licenses listed above.

Very truly yours,

Richard P. Bott II
