Re: Surrender of C-band Earth Station Antennas

Dear Administrator:

Windstream Lexcom Communications, LLC (Windstream) holds unactive antennae in Iowa and Georgia. Windstream also notes that the Commission's rules require earth station operators to take the steps necessary to remove non-operational antennas from the active records in the IBFS.

In accordance with FCC 21-893, the Public Notice released on July 23, 2021, Windstream files to remove the antennas specified in **Attachment A** from IBFS as no longer operational as required by Commission rule.

Sincerely,

A handwritten signature in blue ink, appearing to read 'M. Dardenne'.

Matthew Dardenne
Senior Counsel
