Subject: FW: revised Registration application for C-Band Receive earth station RE: Walton Station -NM file number SES-REG-20181012-05458 Cal Sign E200162

Hello Mr. Leland,

Thank you for the information. I apologize for the multiple e-messages as there were so many I sent out in a day.

Upon reviewing of the elevation angles and the satellite arc 60W-143W you provided, our calculations show the elevation angles for eastern limit should be 28 deg and for western limit 34.4 deg. Therefore, we will correct the elevation angles pursuant to the FCC's calculations based on the satellite arc you specified to facilitate the processing of this application.

This application is placed on the Public Notice for Acceptance.

Sincerely,

Trang Nguyen
