**Re: Christian Broadcasting System, Ltd. ("CBSL")
Call Sign E201046 (SES-REG-20181016-06398)**

Dear International Bureau:

In response to the Bureau's email of October 21, 2020, please be advised that although the August 3, 2020, Incumbent List and the above-referenced registration for E201046 indicate two 3.0 meter Comtech antennas are in service, in fact only one such antenna is in service at that location. Accordingly, with respect to E201046, CBSL is seeking a lump sum reimbursement for one multi-feed antenna.

A separate filing will be submitted with respect to CBSL's E201047.

In our review of the other lump sum reimbursement elections submitted for CBSL (i.e., for E201056, E201060 and E201062), we found no other discrepancies.

Please contact me if any additional information is needed.

Cordially,

/s/ Matthew H. McCormick
