Jae:
That is good with me. I didn't have any idea what to use. Thanks for your help.

I checked with my supervisor.

Per condition 90487 we can proceed with emission 36MOG7W as schedule B is incomplete.

Please let me know if you have any question.

Thanks.

Thanks for this information.

We can use the standard 36MOG7W emission for now.

Please let me know if you agree.

Thanks.

Jae:
The answer to E35 can be changed to NO
I dont know what to tell you on E47. This is for a C band receive only dish. It is receiving Westwood One and Premiere networks
From SES-11 located at 105 degrees. This is using the XDS receivers. If you will please fill this in with whatever is correct.
On E54/55 please change this to 160 degrees.

Thanks for your help.

Hi Paul and Robert,

Please see below and provide data for your Form 312.

Thanks.

Hi Paul Reynolds,

Your form 312 is incomplete.

Please confirm the following:

1. E35. The waiver request is only for the Freq Coord report. If so, we can choose "No" for this application.

35. Does the Applicant request any waivers or exemptions from any of the Commission's Rules?
If Yes, attach as an exhibit, copies of the requests for waivers or exceptions with supporting documents.

Yes No

2. Please provide Emission Designator in Schedule B.

E47. Emission Designator

3. West SatArc is 251W and is beyond the line of sight. If your satellite (PhtComm) is within 160W, though 5 degree elevation is not required I would like to change W SatArc to 160W. Please confirm 160W. I will change elev and azim accordingly.

**E54/55. Range of Satellite Arc
E/W Limit**
60.0 251.0
