

fcc waiver.txt

Requesting, Please a Waiver of Deadline for filinig of this Form 312.

I'd started the process, expecting a smooth batch filing process, and found that there was still, manual, individual entry that was required.

This was moving, slow, but smoothly, but as the deadline approached for timely filing, the FCC systems started bogging down, and were slow to respond, especially when having to Validate, and go to Previous screens after each individual entry on each option, on each individual entry.

I was able to file 29 of the Batch, App Submission ID IB2018010109, yesterday.

I contacted 7 different areas of the FCC today, inquiring about filing the rest, and the International Bureau help person advised that I could withdraw that previous application, and then copy the form, add the additional sites to the batch process, and include this letter, explaining things, and asking please for a waiver of deadline, which is what I'm please asking.

Thank you very much for your consideration. Robert Nall (785) 266-3999
