Form 312 Waiver Request \* Question 35 \* May 28, 2019

We inadvertently overlooked the expiration date for our receive/only earth station license, and it has now passed the one month period in which we can petition for reinstatement.

Therefore, we are applying for a reinstatement of this license in the *form of an application for new license*. Since a renewal application would have been permissible even during the DA 18-398 application freeze, we ask asking for a waiver of the current freeze in relation to the instant application to allow for processing. We want to insure that our downlink is accurately represented in your records for the DA 18-398 process.

This waiver request also includes a waiver from the DA19-278 Earth Station certification requiremet, since that information is, in fact, certified in the instant application.

The license for E9410158 was originally issued on 4/8/1994. The receive/only earth station has been in continuous use since that that time, well before the April 19, 2018 cutoff.

Thank you for your consideration in this matter.

William D. Fawcett  
Director of Engineering

**Name** JAMES MADISON UNIVERSITY BOARD OF VISITORS / (d/b/a VIRGINIA)      **Callsign:** E030319  
**File Number:** SES-REG-20031121-01688  
**Authorization** Registration  
**Non Common Carrier**      **Grant Date:** 01/07/2004      **Expiration Date:** 11/21/2018

**Nature Of Service:** Domestic Fixed Satellite Service

**Class Of Station:** Fixed Earth Stations

**A) Site Location(s)**

#	Site ID	Address	Latitud	Longitude	Elevation (Meters)	NAD	Special Provisions (Refer to Section H)
1)	1	933 RESERVOIR STREET(WMRA-FM) HARRISONBURG, , VA 22803	38&deg;26'27.1"N	78&deg;51'30.2"W	417.6	83	
Licensee certifies antenna(s) do not comply with Section 25.209. Please refer to Section E for special conditions placed upon antennas at this site.							

Subject to the provisions of the Communications Act of 1934, The Communications Satellite Act of 1962, subsequent acts and treaties, and all present and future regulations made by this Commission, and further subject to the conditions and requirements set forth in this license, the registrant is registered to operate the radio facilities described below for radio communications for the term beginning Friday, November 21, 2003 and ending Wednesday, November 21, 2018. The required date of commencement of operation is 00/00/0000. Registrant must file with the Commission a certification upon commencement of operation.

**B) Particulars of Operations**

The General Provision 1010 applies to all receiving frequency bands.

The General Provision 1900 applies to all transmitting frequency bands.

For the text of these provisions, refer to Section H.

#	Frequency	Polarization	Emission	Tx/Rx Mode	Max EIRP /Carrier	Max EIRP Density	Associated Antenna	Special Provisions (Refer to Section H)	Modulation/ Services
1)	3700.0000 - 4200.0000	H,V	10M3G7W	R			3.8 M.		DIGITAL BROADCAST AUDIO CARRIER
2)	3700.0000 - 4200.0000	H,V	30K0F1D	R			3.8 M.		DIGITAL AUDIO CARRIER

**C) Frequency Coordination**

#	Frequency Limits (MHz)	Satellite Arc (Deg. Long.)		Elevation (Degrees)		Azimuth (Degrees)		Max EIRP Density toward Horizon (dBW/4kHz)	Associated Antenna(s)
		East Limit	West Limit	East Limit	West Limit	East Limit	West Limit		
1)	3700.0000 - 4200.0000	60.0W	143.0W	41.3	11.5	151.2	253.2	3.8 M.

**D) Point of Communications**

The following stations located in the Satellite orbits consistent with Sections B and C of this License:

- 1) 1 to All authorized U.S. Domestic (ALSAT) Satellites.

**E) Antenna Facilities**

**Site/Elevation:** 417.58 (Meters) AMSL

Site ID	Antenna ID	Units	Diameter (meters)	Manufacture	Model number	Max Antenna Height (Meters)	Special Provisions (Refer to Section H)
1	3.8 M.	1	3.8	COMTECH ANTENNA	3.8 METER PF	3.9 AGL/ 421.48 AMSL	

Max Gains(s): 42.9 dBi @ 4.0000 GHz

Maximum total input power at antenna flange (Watts) = .00

Maximum aggregate output EIRP for all carriers (dBW) .00

**H) Special and General Provisions**

A) This RADIO STATION AUTHORIZATION is granted subject to the following special

- 2200 These facilities shall be used for the reception of only such programming material that the grantee has been authorized to receive and use by the owner of the programming material.
- 2456 No protection beyond that afforded in "Deregulation of Domestic Receive-Only Satellite Earth Stations" will be provided for TVRO earth stations. Due to 2 degree orbital spacing, "the potential levels of interference caused by satellite transmissions are already defined and the actual level of any protection desired by an applicant from intersatellite interference for small receiving earth station antennas will be achieved by the choice of receiving antenna performance selected by parties installing new receive-only earth stations." FCC 86-133 36552.
- 2464 The grantee is authorized to add, delete or change channels of program material without further application or notification to the Commission, provided: (a) The carriage of such program material is an authorized pursuant to the Commission's rules, regulations and policies governing the terrestrial system (s) used to distribute this material to the end subscribers, and (b) that such earth station operations are consistent with the technical parameters specified in the registration.
- 2465 This provision relates to potential interference from terrestrial microwave stations. Operation of the receive-only earth station shall be in accordance with the frequency coordination exhibit accompanying the application.
- 5216 All operations shall be on a non-common carrier basis.

**H) Special and General Provisions**

B) This RADIO STATION AUTHORIZATION is granted subject to the

This authorization is issued on the grantee's representation that the statements contained in the application are true and that the undertakings described will be carried out in good faith.

This authorization shall not be construed in any manner as a finding by the Commission on the question of marking or lighting of the antenna system should future conditions require. The grantee expressly agrees to install such marking or lighting as the Commission may require under the provisions of Section 303(q) of the Communications Act. 47 U.S.C. § 303(q).

Neither this authorization nor the right granted by this authorization shall be assigned or otherwise transferred to any person, firm, company or corporation without the written consent of the Commission. This authorization is subject to the right of use or control by the government of the United States conferred by Section 706 of the Communications Act. 47 U.S.C. § 706. Operation of this station is governed by Part 25 of the Commission's Rules. 47 C.F.R. Part 25.

This authorization shall not vest in the licensee any right to operate this station nor any right in the use of the designated frequencies beyond the term of this license, nor in any other manner than authorized herein.

This authorization is issued on the grantee's representation that the station is in compliance with environmental requirements set forth in Section 1.1307 of the Commission's Rules. 47 C.F.R. § 1.1307.

This authorization is issued on the grantee's representation that the station is in compliance with the Federal Aviation Administration (FAA) requirements as set forth in Section 17.4 of the Commission's Rules. 47 C.F.R. § 17.4.

The following condition applies when this authorization permits construction of or modifies the construction permit of a radio station.

This authorization shall be automatically forfeited if the station is not ready for operation by the required date of completion of construction unless an application for modification of construction permit for additional time to complete construction is filed by that date, together with a showing that failure to complete construction by the required date was due to factors not under control of the grantee.

**Licensees are required to pay annual regulatory fees related to this authorization. The requirement to collect annual regulatory fees from regulates is contained in Public Law 103-66, "The Omnibus Budget Reconciliation Act of 1993". These regulatory fees, which are likely to change each fiscal year, are used to offset costs associated with the Commission's enforcement, public service, international and policy and rulemaking activities. The Commission issues a Report and Order each year, setting the new regulatory fee rates. Receive only earth stations are exempt from payment of regulatory fees.**
