| Hi Tim,                   |   |
|                           |   |
| Though 5 degree elevis    | s not required for receive-only, we ask that you change SatArc from 5W-170W to 17W-158W for |
| elev above 5 degrees.     | The required for receive only, we ask that you change satare from SW 170W to 17W 150W for   |
|                           |   |
|                           |   |
| We will also change Ele   | v and Azim accordingly.   |
|                           |   |
| Please confirm this char  | nge.  |
|                           |   |
|                           |   |
| Thanks.                   |   |
|                           |   |
