Jae:

Thank you again for reaching out. After looking into the issue, it appears that there were typos in the GPS coordinates for the original E060176 registration and the application for the two additional co-located antennas. Specifically, the Site 1 latitude and longitude should be:

Site ID	Latitude	Longitude
1	30° 21' 56.1" N	97° 44' 16.6" W

These coordinates specify 3201 Steck Avenue, which is the address of KVUE's studio in Austin, Texas. The same typos appear in the co-located antenna registration application, which should instead reflect the following coordinates for the two additional co-located antennas.

Site ID	Antenna ID	Latitude	Longitude
1	2	30° 21' 57.7" N	97° 44' 16.6" W
1	3	30° 21' 57.5" N	97° 44' 16.6" W

The below screenshot verifies the location of the antennas and the site address.

Please let us know if you need any additional information. Thanks again.

Best,

Corey

Hello Jae --

I hope that you are well. Thank you for reaching out. We are researching the issue now and will circle back. I have copied here my colleague Corey Walker who is taking the lead on resolving the issue.

Best wishes,

Jennifer

**EXTERNAL**

Hi Jennifer Johnson, ESQ. and Denise A Branson,

We hope all is well.

We can't verify location of your antennas.

Your site address and coordinates don't match.

Please verify location of antennas and site address/coordinates on Google Earth (WGS84)

Thanks.

Jae Lim
