

Schedule B, Question E15 Exhibit

Starz Entertainment, LLC ("Applicant") agrees to accept any adjacent satellite interference in the 4 GHz receive band as a result of the performance of the antenna in the 1° to 1.5° region. Applicant understands that no adjacent satellite interference protection will be available in the 1° to 1.5° region. Applicant understands that adjacent satellite interference protection applies only to the extent of the criteria set forth in 47 C.F.R. §25.209.
