DOCUMENTATION OF EXEMPTION
FROM FAA NOTIFICATION REQUIREMENTS
Evangelistic Alaska Missionary Fellowship, Inc.
North Pole, AK

The facility proposed in the attached application is a fixed downlink with the satellite antenna permanently ground mounted. The satellite antenna is a 6.1 meter parabolic reflector, with the center point of the dish mounted 4.0 meters above ground. Thus, the total height of the antenna system is less than 7.1 meters above ground.

According the FCC TOWAIR utility, a 7.1 meter structure at this location would pass slope to any airport. Therefore, pursuant to Section 17.07(b) of the FCC Rules and Section 77.13 of the FAA Rules and Regulations, this downlink facility is exempted from FAA notification requirements.
