Attn: Marlene H. Dortch, Secretary

Ref: Satellite Communication Systems, Inc (SCSI) – FRN 0005863071

This letter serves as the SCSI request to terminate satellite earth station transmission licensing. The listing below is by call sign and it should be noted that many of these sites should have retroactive licensing disconnect based upon:

**FCC Title 47 Section 25.161 “Automatic termination of station authorization” A station authorization shall be automatically terminated in whole or in part without further notice to the licensee upon subsection c, The removal or modification of the facilities which renders the station not operational for more than 90 days, unless specific authority is requested.**

Call Sign	Disconnect Date
E4687	June 97
E5044	May 96
E5084	Sep 97
E6344	Dec 93
E7132	Dec 99
E8666	Oct 95
E8732	Mar 99
KE32	Jun 97
KY85	Jan 00
E990449	Dec 06
E990453	Sep 03
E990454	Sep 03

Please contact me should you require further information. SCSI previously supplied a document dated 27 Feb 07 with backup information substantiating many of the disconnect dates listed above. SCSI is working diligently to make our company compliant with FCC licensing requirements.

Sincerely,

Ernie Hux  
President

SCSI received a “Notice of Withholding of Action” letter (3 pages) based upon the above referenced FRN dated 1/16/07. The withholding was based upon an SCSI application to continue operations at one of our satellite earth stations located in Florida. A copy of this FCC letter is included with this submission.

SCSI acknowledges we did not understand the FCC process concerning earth stations and are now trying to correct our deficiencies with the FCC in accordance with the FCC letter. Utilizing the FCC letter, SCSI obtained copies of these invoices off the Internet. SCSI would like to state, we had never previously seen these invoices. SCSI is still not sure why the FCC did not mail these to SCSI for payment. It would be helpful to SCSI if the FCC would simply mail these invoices to our company.

SCSI studied all the invoices listed in the FCC letter carefully, located all the call signs, and generated an excel spreadsheet (2 pages), which is included with this document. Almost all of invoiced call signs are satellite earth stations which SCSI has or previously provided communication circuits to the US Department of Defense. Most of these satellite antennas are or were previously located on premise at US military bases.

After an examination of all of these invoices, SCSI made payment for all undisputed invoices listed on the FCC letter. SCSI paid for all of these undisputed invoices via FedEx. SCSI made payment in the amount of \$7,266.11. The undisputed payments are also identified on the SCSI generated excel spreadsheet.

The tracking information for the SCSI undisputed amounts is as follows:

SCSI has disputed on the remaining invoices primarily for 2 different reasons. Please find both of these classifications identified below.

1. SCSI disputes the excel spreadsheet colored red for the following reason: These earth stations were no longer operational or did not exist for the Fiscal years identified on the invoice. Under FCC Title 47 Section 25.161 "***Automatic termination of station authorization***" ***A station authorization shall be automatically terminated in whole or in part without further notice to the licensee upon subsection c, The removal or modification of the facilities which renders the station not operational for more than 90 days, unless specific authority is requested.***

All of the SCSI disputes colored red, were for satellite earth stations located on US military bases. SCSI has enclosed some circuit termination documentation to assist in verifying the satellite earth terminals no longer operated. The information colored red was provided by the SCSI engineering department when the satellite earth station stopped transmitting. SCSI acknowledges a bit of discrepancy between the "back up information" (which we have provided on a best effort basis) and the red text on the spreadsheet.

2. SCSI disputes the excel spreadsheet colored blue for the following reason: SCSI simply does not have enough information to determine if these invoices are applicable. There is no Fiscal year identified on the invoices and it does not clearly identify the reason for invoice. If there were more information concerning the fiscal year and description of invoice, SCSI would pay this assuming the provided information was accurate and due.

SCSI seeks to have a good working relationship with the FCC. SCSI apologizes for our lack of understanding concerning the FCC regulations. Our company will strive to do better in the future.

We appreciate your review of our account.

Sincerely,

Ernie Hux  
President

Mr. Roland Jones  
Satellite Communication  
Systems, Inc.  
Harbour Centre, Suite 1000  
2 Eaton Street  
Hampton, VA 23669

Dear Mr. Jones:

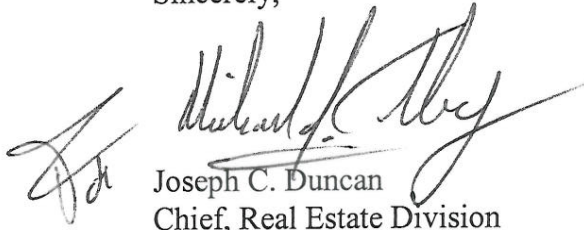

Department of the Army License No. DACA67-3-83-204, granted Satellite Communication Systems, Inc., the right to install, operate and maintain communication equipment on a 30' x 50' parcel near Building No. 6071, Fort Lewis, Washington.

We asked you, in accordance with Condition No. 5 of said license, to vacate, remove the antenna and supporting improvements and to restore the property to its original condition.

Fort Lewis has stated that all the terms and conditions in License No. DACA67-3-83-204 have been met and that the site has been restored to their satisfaction.

If you have any questions, please call Ms. Cindy Wikstrom at (206) 764-6074.

Sincerely,

  
Joseph C. Duncan  
Chief, Real Estate Division

DEINSTALLATION COMP

Point Loma  
Satellite Turn Down  
May 96  
Removed entirely  
11/28/2000

Program Name: DOD-1  
Customer Name: POINT LOMA  
Contract No.: SCSI-W-07500740  
Program Manager: ROLAND E. JONES  
Site Location: SANDIEGO CA, POINT LOMA

## Activity Description:

De-install earth terminal and all ancillary equipment as required, including any fencing. Concrete foundations and exterior conduits underground are not required to be removed. Foundations will be left with no protruding bolts. All conduits openings will be sealed and all debris will be removed from the site prior to departure.

Electrical Stub Up Left Per Request By Customer.

The above named site has been inspected an appropriate SCSI equipment and associated hardware have been removed. Site restoration and clean-up is complete.

**Subject: Cancell Circuit**

**Date:** Tue, 24 Oct 2000 14:40:21 -0400

**From:** "Roland E. Jones" <roland@sat-tel.com>

**Organization:** Satellite Communication Systems, Inc.

**To:** Gerry.Reed@dyncorp.com, Derick Albert <Derick@sat-tel.com>

Gerry,

Please take immediate action to discontinue the following space segment for circuits:

SCSI 07500658

SCSI 07500659

SCSI 07500660

Please cancel all circuits in there entirety effective today.

Thanks

Roland
