Attention: Marlene H. Dortch, Secretary

SEP 13 2006

Dear Secretary Dortch,

Satellite Division
International Bureau

I am writing to request cancellation of a satellite earth station, Call Sign E880961/File 001935-DSE-P/L-88, which is held by the Eisenhower Medical Center. The Eisenhower Medical Center has contracted with us to cancel this authorization, as they are dismantling their ground station.

We were under the assumption that a Form 312 would suffice for this request. However, when I spoke with Towanda Bryant with the FCC International Bureau today, I was informed that I simply needed to write a formal letter to you requesting this. I was also told there were no fees associated with this.

Attached is the original signed copy of a Form 312, which Hospital Facilities Manager Fred Allard signed authorizing this cancellation. (We had him complete this before we knew better.) While not required, I felt you would prefer to have his signed release. I have also included a copy of the affected license.

Upon completion, I am requesting some written documentation that this has been done. You may either mail, fax, or e-mail this confirmation in whatever format is convenient for you. If you choose to use e-mail, send it to me at <radiolicensing@cuaccess.net>.

Please call me if you have any questions about any of this.

Respectfully Submitted,

Colin Rush
FCC Compliance Administrator
