ALSAT will work. Let's run with that. The old POC's were domestic satellites we dont need to list separately any more.

Thanks for it all!

Stay warm.

I can't locate the original file. The satellites in the Points of Communications are not printing out. Please let me know all of the satellites that are supposed to be on the license. I will be able to grant it then.

Tnx. T.

Hi Towanda, Ryan Terry has inquired about the status of this renewal. Can you advise? Thanks. mj
