Earth Station Construction Certifications

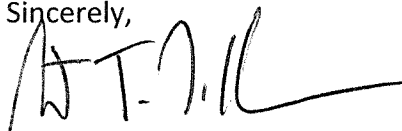

Dear Ms. Dortch:

Attached are an original and two (2) copies of construction completion certifications for the above-referenced Earth Stations licensed to Schlumberger Technology Corporation ("STC").

STC timely completed construction of, and commenced operation on, these referenced earth stations. Further, these earth stations were tested to be, and continue to operate, in compliance with all applicable FCC rules. However, STC inadvertently failed to file these certifications on a timely basis.

Should there be any questions concerning this matter, please contact the undersigned counsel for STC.

Sincerely,

Robert J. Miller
