Federal Communications Commission

IBFS

Washington, DC

To Whom it May Concern:

In October 2009, I sold the chassis and antenna of my Ku Band satellite uplink truck call sign: E980075 to Jeff Newman of Orlando, FL. Mr. Newman converted the truck from a Ku truck to a C band truck. I failed to relinquish my license at that time and have been out of the satellite uplink business.

I wish to let the Commission know that I have sold that unit.

Additionally, in February 2011, I purchased a used satellite truck from NBC Telemundo/WRC-TV in Washington, D.C. call sign E980067. I am hoping to transfer this license to RapComm, LLC.

Please advise as to the necessary procedures in order to expedite licensing this used satellite truck.

I apologize for any inconvenience and I appreciate any help you can provide.

Sincerely,

Daniel J. Rapkoch

Owner
