Re: Surrender of Earth Station Licenses E980302, E980304 & E980252

To Whom It May Concern,

The National Digital Television Center, Inc. (aka Comcast Media Center) (FRN 0006417067) hereby wishes to surrender the following earth station licenses:

E980302
E980304
E980252

These licenses were for three satellite earth stations that were located at 12312 W. Olympic Blvd., Los Angeles, CA. This facility was sold and these respective earth stations were dismantled and are currently in storage for future use. Since these stations are no longer operational, NDTC would like to surrender these licenses back to the FCC.

If you have any questions or concerns, please don't hesitate to give me a call.

Regards,

Les Shutter
