

Description of Application
And
Request for Waiver

By this Application, Emerging Markets Communications, Inc. (“EMC”) requests renewal of its earth station license with call sign E980250. This earth station is located in Kapolei, HI and its license expires on December 5, 2010. In connection with this Application, EMC requests a waiver of Section 25.121(e) of the FCC Rules. Section 25.121(e) provides that applications for renewals of earth station licenses be submitted no later than 30 days before the expiration date of the license. EMC inadvertently only recently became aware that the license renewal date was imminent. EMC will operate the earth station subject to the existing operating parameters and conditions. Because grant of this request will allow EMC to provide continuity of service, there is good cause to grant this request.
