

PLEADING TO CORRECT RECEIVE-ONLY EARTH STATION SITE INFORMATION

To Whom It May Concern:

Reference earth station registration for CCO SoCal I, LLC
FRN 0020921029
Call sign: KG33 in Turlock, CA

The coordinates for this registration are stored in IBFS as NAD27 values; however, they appear to land on a site somewhat distant from the actual site. The reason for the discrepancy is apparently due to a mis-calculation of the site coordinates at the time of initial registration.

The actual NAD83 coordinates of this active station, from Google Earth, are:
37° 29' 54.8" N Latitude
120° 52' 31.5" W Longitude
Elevation: 29.3 meters (96 ft.)

The actual site has been the true site since at least 1998, as witnessed by the satellite photos below.

Registrant requests correction in the IBFS record.

Sincerely,

Steve Flessner | Manager, FCC Relations | 303.323.6020
CharterFCC@Charter.com

KG33 – Turlock, CA

Site has been in existence since at least 1998, shown within the red triangle on each picture.
