

**UNITED STATES OF AMERICA**  
**FEDERAL COMMUNICATIONS COMMISSION**  
**RADIO STATION AUTHORIZATION**

Gray Television Licensee, LLC

Call Sign: E910470

**Authorization Type:** Renewal of License

**File Number:** SES-RWL-20110621-00717

Non Common Carrier

**Grant date:** 06/24/2011

**Expiration Date:** 08/16/2026

**Nature of Service:** Domestic Fixed Satellite Service

**Nature of Service:** Fixed Satellite Service

**Class of Station:** Temporary Fixed Earth Station

**A) Site Location(s)**

| #  | Site ID | Address  | Latitude | Longitude | Elevation<br>(Meters) | Special Provisions<br>NAD (Refer to Section H) |
|----|---------|----------|----------|-----------|-----------------------|------------------------------------------------|
| 1) | 1       | VARIOUS, |          |           | 0                     | NA                                             |

Licensee certifies antenna(s) comply with gain patterns specified in Section 25.209

*Subject to the provisions of the Communications Act of 1934, The Communications Satellite Act of 1962, subsequent acts and treaties, and all present and future regulations made by this Commission, and further subject to the conditions and requirements set forth in this license, the grantee is authorized to construct, use and operate the radio facilities described below for radio communications for the term beginning August 16, 2011 (3 AM Eastern Standard Time) and ending August 16, 2026 (3 AM Eastern Standard Time). The required date of completion of construction and commencement of operation is 00/00/0000. Grantee must file with the Commission a certification upon completion of construction and commencement of operation.*

**B) Particulars of Operations**

The General Provision 1010 applies to all receiving frequency bands.

The General Provision 1900 applies to all transmitting frequency bands.

For the text of these provisions, refer to Section H.

| #  | Frequency<br>(MHz)    | Polarization<br>Code | Emission | Tx/Rx<br>Mode | Max<br>EIRP<br>/Carrier<br>(dBW) | Max EIRP<br>Density<br>/Carrier<br>(dBW/4kHz) | Associated<br>Antenna | Special<br>Provisions<br>(Refer to<br>Section H) | Modulation/<br>Services                  |
|----|-----------------------|----------------------|----------|---------------|----------------------------------|-----------------------------------------------|-----------------------|--------------------------------------------------|------------------------------------------|
| 1) | 14000.0000-14500.0000 | H, V                 | 36M0G7W  | Tx            | 64.50                            | 24.95                                         | 1                     | ONE                                              | 36MBIT DIGITAL<br>CARRIER FOR VIDEO/DATA |

**C) Frequency Coordination Limits**

| #  | Frequency Limits<br>(MHz) | Satellite Arc<br>(Deg. Long.) |               | Elevation<br>(Degrees) |               | Azimuth<br>(Degrees) |               | Max EIRP<br>Density toward<br>Horizon<br>(dBW/4kHz) | Associated<br>Antenna(s) |
|----|---------------------------|-------------------------------|---------------|------------------------|---------------|----------------------|---------------|-----------------------------------------------------|--------------------------|
|    |                           | East<br>Limit                 | West<br>Limit | East<br>Limit          | West<br>Limit | East<br>Limit        | West<br>Limit |                                                     |                          |
| 1) | 14000.0000-14500.0000     | 60.0W-140.0W                  |               | 05.0-05.0              |               |                      |               |                                                     | 1                        |

Gray Television Licensee, LLC

Call Sign: E910470

**Authorization Type:** Renewal of License

**File Number:** SES-RWL-20110621-00717

Non Common Carrier

**Grant date:** 06/24/2011

**Expiration Date:** 08/16/2026

**D) Points of Communications**

The following stations located in the Satellite orbits consistent with Sections B and C of this Entry:

1) 1 to Permitted Space Station List

**E) Antenna Facilities**

| Site ID                                                | Antenna ID | Units | Diameter (meters) | Manufacturer   | Model number | Site Elevation (Meters) | Max Antenna Height (Meters) | Special Provisions (Refer to Section H) |
|--------------------------------------------------------|------------|-------|-------------------|----------------|--------------|-------------------------|-----------------------------|-----------------------------------------|
| 1                                                      | 1          | 1     | 1.2               | AVL TECHNOLOGY | 1200         | 0                       | 4 AGL/ 0 AMSL               |                                         |
| Max Gains(s): 43.5 dBi @ 14.2500 GHz                   |            |       |                   |                |              |                         |                             |                                         |
| Maximum total input power at antenna flange (Watts) =  |            |       |                   |                | 125.00       |                         |                             |                                         |
| Maximum aggregate output EIRP for all carriers (dBW) = |            |       |                   |                | 64.50        |                         |                             |                                         |

**F) Remote Control Point:**

1

Call Sign: E910470

**G) Antenna Structure marking and lighting requirements:**

None unless otherwise specified under Special and General Provisions

**H) Special and General Provisions**

A) This RADIO STATION AUTHORIZATION is granted subject to the following special provisions and general conditions:

- 1900 --- Applicable to all transmitting frequency bands. Authority is granted to transmit any number of RF carriers with the specified parameters on any discrete frequencies within associated band in accordance with the other terms and conditions of this authorization, subject to any additional limitations that may be required to avoid unacceptable levels of inter-satellite interference.
- 2010 --- This authorization is issued pursuant to the Commission's Second Report and Order adopted June 16, 1972 (35 FCC 2d 844) and Memorandum, Opinion and Order adopted December 21, 1972 (38 FCC 2d 665) in Docket No. 16495 and is subject to the policies adopted in that proceeding.
- 2079 --- (a) Operation of this station is limited to locations within the territory of the United States. (b) All operations shall be in accordance with the applicable provisions of Sections 21.707 & 21.708 of the Rules. (c) Unless separate authorization is granted by the Commission for the International communications, operations herein are limited to communication with earth stations within the United States via U.S. domestic satellites.
- 2087 --- The use of these small diameter facilities is authorized pursuant to the Commission's Declaratory Order in Routine Licensing of earth stations in the 6 GHz and 14 GHz bands using antennas less than 9 meters and 5 meters in diameter, respectively, for both full transponder and narrowband transmissions (DA 87-391) released April 13, 1987.

Non Common Carrier

**Grant date:** 06/24/2011

**Expiration Date:** 08/16/2026

## **H) Special and General Provisions**

**A)** This RADIO STATION AUTHORIZATION is granted subject to the following special provisions and general conditions:

2454 --- All satellite uplink transmissions carrying broadband video information shall comply with the Automatic Transmitter Identification System (ATIS) requirements of Section 25.281 of the Rules, as modified by FCC Report No. DS-1066, released on April 3, 1991.

5208 --- The licensee shall take all necessary measures to ensure that the antenna does not create potential exposure of humans to radiofrequency radiation in excess of the FCC exposure limits defined in 47 CFR 1.1307(b) and 1.1310 wherever such exposures might occur. Measures must be taken to ensure compliance with limits for both occupational/controlled exposure and for general population/uncontrolled exposure, as defined in these rule sections. Compliance can be accomplished in most cases by appropriate restrictions, such as fencing. Requirements for restrictions can be determined by predictions based on calculations, modeling, or by field measurements. The FCC's OET Bulletin 65 (available on-line at [www.fcc.gov/oet/rfsafety](http://www.fcc.gov/oet/rfsafety)) provides information on predicting exposure levels and on methods for ensuring compliance, including the use of warning and alerting signs and protective equipment for workers.

5216 --- All operations shall be on a non-common carrier basis.

**RADIO STATION AUTHORIZATION**

Gray Television Licensee, LLC

Call Sign: E910470

**Authorization Type:** Renewal of License

**File Number:** SES-RWL-20110621-00717

Non Common Carrier

**Grant date:** 06/24/2011

**Expiration Date:** 08/16/2026

**B) This RADIO STATION AUTHORIZATION is granted subject to the additional conditions specified below:**

This authorization is issued on the grantee's representation that the statements contained in the application are true and that the undertakings described will be carried out in good faith.

This authorization shall not be construed in any manner as a finding by the Commission on the question of marking or lighting of the antenna system should future conditions require. The grantee expressly agrees to install such marking or lighting as the Commission may require under the provisions of Section 303(q) of the Communications Act. 47 U.S.C. § 303(q).

Neither this authorization nor the right granted by this authorization shall be assigned or otherwise transferred to any person, firm, company or corporation without the written consent of the Commission. This authorization is subject to the right of use or control by the government of the United States conferred by Section 706 of the Communications Act. 47 U.S.C. § 706. Operation of this station is governed by Part 25 of the Commission's Rules. 47 C.F.R. Part 25.

This authorization shall not vest in the licensee any right to operate this station nor any right in the use of the designated frequencies beyond the term of this license, nor in any other manner than authorized herein.

This authorization is issued on the grantee's representation that the station is in compliance with environmental requirements set forth in Section 1.1307 of the Commission's Rules. 47 C.F.R. § 1.1307.

This authorization is issued on the grantee's representation that the station is in compliance with the Federal Aviation Administration (FAA) requirements as set forth in Section 17.4 of the Commission's Rules. 47 C.F.R. § 17.4.

The following condition applies when this authorization permits construction of or modifies the construction permit of a radio station.

This authorization shall be automatically forfeited if the station is not ready for operation by the required date of completion of construction unless an application for modification of authorization to request additional time to complete construction is filed by that date, together with a showing that failure to complete construction by the required date was due to factors not under control of the grantee.

**Licensees are required to pay annual regulatory fees related to this authorization. The requirement to collect annual regulatory fees from regulatees is contained in Public Law 103-66, "The Omnibus Budget Reconciliation Act of 1993." These regulatory fees, which are likely to change each fiscal year, are used to offset costs associated with the Commission's enforcement, public service, international and policy and rulemaking activities. The Commission issues a Report and Order each year, setting the new regulatory fee rates. Receive only earth stations are exempt from payment of regulatory fees.**
