FCC International Bureau  
445 12<sup>th</sup> Street SW  
Washington, DC 20554

Subject: Petition to Reinstate, KB23

Gentlemen;

This is a Petition to Reinstate Earth Station License KB23, which expired on September 13, 2011.

Due to a change of FCC representatives, this license failed to be renewed during the accepted renewal time frame.

We have established a procedure in which a master list of all FCC licenses and Authorizations has been created including expiration dates and action dates to renew said licenses. It will be the responsibility of the engineering staff to monitor the list on a monthly basis for any necessary fillings and ensure that they are in fact filled in a timely manner.

Operations on the KB23 licensed antennas have been suspended and/or moved to other licensed facilities until such time as the license is reinstated or we receive Authorization via an STA (applied for under separate filling).

Sincerely,

A handwritten signature in blue ink, appearing to be "Richard Duke".

Richard Duke  
President  
Westar Satellite Services, LP
