

Statement Regarding Applicant’s Organization and Control

In connection with an assignment application filed with the Commission on March 27, 2007, MTN License Corp. (“MTN”) submitted an organizational diagram that identified the nature and extent of control of MTN. *See* File No. SES-ASG-20070327-00405. The information contained in that diagram remains accurate, except that the name of one entity listed in the diagram has changed from SeaMobile Enterprises, Inc. to SeaMobile Satellite Holdings, Inc. This name change does not result in a transfer of control of MTN under Section 25.119(b) of the Commission’s rules, and is being reported here to comply with the renewal application’s request to note any exceptions to an applicant’s organization information on file with the Commission. An updated organizational diagram is included below.

As the diagram indicates, SeaMobile is the entity that ultimately controls MTN.

MTN also included, as part of the assignment application referenced above, a chart listing the entities holding a ten percent or greater share of SeaMobile’s voting stock. This information contained in this chart has since changed, but these changes do not result in a transfer of control of MTN, which remains under the control of SeaMobile. An updated version of the chart follows.

Entities Holding Ten Percent or More of SeaMobile’s Voting Stock

Name/Address	Citizenship	Business	% Equity Stock Directly Held in SeaMobile	% Voting Stock Directly Held in SeaMobile
Ignition GP III, LLC 11400 SE 6 th Street, Suite 100 Bellevue, WA 98004	Washington	Investment	29.59%	29.59%
Ignition Growth GP, LLC 1500 4 th Avenue, Suite 200 Seattle, WA 98101	Washington	Investment	13.83%	13.83%
Europatweb SA 11 rue François 1er 75008 Paris, France	France	Investment	15.98%	15.98%
