

Petition for Reinstatement of Registration for TVRO Station KP80

This application respectfully requests that the registration for Domestic Satellite Fixed Receive-Only (TVRO) Earth Station KP80 be reinstated and renewed. It has just come to the registrant's attention that the registration authorization expired April 16, 2017, less than 30 days ago. The registrant and its legal counsel are currently establishing revamped record-keeping systems that will prevent any future inadvertent oversights of the renewal deadlines set forth in Section 25.131(h) of the rules.

The earth station is used in connection with providing service to Cable One subscribers in and around Kirksville, Missouri. Because continued use of the registered TVRO earth station will serve the public interest and the registrant took prompt action as soon as soon as it discovered the renewal deadline had been overlooked, the registrant hereby petitions the FCC to reinstate and renew the registration authorization *nunc pro tunc*.
