Re: FAA 1A Certification for GCI Arctic Village Utility Site (3.6m Dish)

On August 22, 2015, I conducted a high precision GPS survey of the facilities located in Arctic Village. The position of the structure is shown below.

Latitude: 68°07'40.93" North (NAD83)
Longitude: 145°32'16.14" West (NAD83)

Elevation of antenna base at ground: 2066 feet
(Elevation is NAVD88 MSL, derived using Geoid Model 2012A)

Height to top of highest antenna: 18 feet

I hereby certify that this survey meets and exceeds the standards for an FAA 1A certification of within $20\pm$ feet horizontally and $3\pm$ feet vertically.

Signed:  8/31/15
