ATTN: International Bureau – Earth Stations

Re: Supplement to License Renewal Application  
Satellite Earth Station KL42  
FCC File No. SES-RWL-20171208-01313

On behalf of Iowa State University of Science and Technology (“ISU”), we submit this supplement to the above-referenced license renewal application in FCC File No. SES-RWL-SES-RWL-20171208-01313 for domestic fixed satellite earth station KL42 at Ames, Iowa.

Please note that although the KL42 earth station facility is presently licensed as a transmit/receive facility, the transmit functions are no longer in use. ISU therefore seeks to remove the transmit frequency listings from the KL42 authorization, and authorize KL42 as a receive-only earth station authorization.

We respectfully request that the International Bureau associate this supplement with the renewal application and continue to process the renewal. Should any questions arise concerning this matter, kindly contact this office.

Very truly yours,

/s/ Barry S. Persh
