Jae:

For E030251, I need to apologize -- I mixed this one up with another call sign when I replied last month with new coordinates, and the renewal was then granted on 8/22/2018; but in fact, those were the wrong coordinates, and the correct coordinates are actually as follows:

32 46 19.09 N
-117 04 24.50 W

Also, the site elevation should be corrected to: 146.3

Is it possible to correct/re-issue the E030251 renewal registration to incorporate these changes?

Thanks,
Barry

Sorry, they've sent still more information on this, as follows:

In NAD 83, the are coordinates 32 16 25.3515439 N 106 44 38.0324536 W The NAD 27 coordinates are 32. 273614
-106. 743340
