Mr. Lim-

Intelsat 16 is currently at 76.2 WL. The renewal just renews the current license is without any updates, hence why Intelsat 16 at 58.1 WL is listed. Ideally, I would like Intelsat 16 at 58.1WL to remain on the license for operational flexibility.

Best,
Cindy

Hi Cynthia,

I'm working on your application and need to verify your PntComm.

Your previous application listed Intelsat 16 (S2750) @58.1WL.

I believe it's at 76.2 WL.

Do you still use this PntComm?

Thanks.
