Hello – and a response from my colleague who handles more satellite-related issues than I do in response to your question:

Yes, potentially, but not the satellites specifically referenced in the license. As the current Anik F series satellites are on the Permitted List, there's no need for the separate entry, and it can be deleted. Permitted List authority alone is sufficient.

Please let me know if you need anything else and thank you.

Paul

Hi Paula Cicelski,

Please let us know if you still use ANIK satellites.

Thanks.

D) Points of Communications

The following stations located in the Satellite orbits consistent with Sections B and C of this Entry:

- 1) 1 to Permitted Space Station List
- 2) 1 to All ANIK satellite(s) of the CANADIAN system.
