

**Attachment 1**  
**Petition for Reinstatement**

NBC Telemundo License LLC (“NBC”) hereby files this Petition for Reinstatement pursuant to 47 CFR § 25.163(a) for Earth Station E950186 (the “Station”) in accordance with the technical parameters of its license, File Number: SES-MOD-20131113-01030. The expiration date of the license was April 21, 2020. Due to an administrative oversight, the renewal application was not timely filed with the Commission; it is now being filed within the 30 days allowed for reinstatement petitions under 47 CFR § 25.163(a)(1).

NBC regrets the inadvertent administrative error that caused this lapse and provides the information required by 47 CFR § 25.163(a)(2) and (3). Specifically, due to an oversight, the renewal date was not entered on to our master calendar of FCC due dates, resulting in the missed deadline. When it came to the company’s notice, action was taken immediately to rectify the error. NBC is well aware of the seriousness of the situation and is undertaking a comprehensive review of its FCC calendar for completeness and accuracy in order to prevent a recurrence.

In light of the considerations above, we believe the public interest would be served by grant of this petition for reinstatement and the renewal of the license for E950186.
