Hi Jae, we'd prefer to keep both individual satellites and the Permitted List as points of communications for E050255. S2632 was relocated to 119.05 WL in October 2020 (see SAT-MOD-20200810-00094). S2455 is at the same location, but will be deorbiting in 2021. For now, the earth station needs to communicate with both satellites, and our preference is that the earth station continue to be permitted to communicate with the Permitted List as well.

Please let me know if you have any questions. Thanks, Katy

Hi Katy,

At 119.05W I see S2455.
S2632 is at 100.85 W.
You have the Permitted List and you have access to both satellites.
Please tell me which one you need.
Thanks.

Hi Jae, I'm glad you flagged this issue. The highlighted portion has a typo in the call sign. That line should read:

2) LADUF (CBC) to DIRECTV 8 (K) (**S2632**) @119.05) degrees W.L. (U.S.-licensed)

Please let me know if you have any questions. Thanks, Katy
