Hi Jae, I hope all is well with you too! DIRECTV would like the points of communication for E050340 be updated to read "US LICENSED DIRECTV satellites at 101, 110, and 119 WL clusters". Can we please make that that change? The currently listed point of communication, DIRECTV1R at 72.5 degrees W.L., has been deorbited. Thank you!

Katy

Hi,

I hope all is well.

I'm unable to find your satellite at 72.5 W.

Please provide an updated list of PntComm.

Thanks.
