Hi Jae, for call sign E060014:

1. Spaceway 1 is retired/deorbited and can be removed
2. Spaceway 2 is in operation and located at 138.9 WL - this is correct.
3. DIRECTV 8 is now located at 119.05 WL

In addition I note that DIRECTV has a pending modification application to add the Permitted List as an authorized point of communication for this call sign (File Number: SES-MFS-20210125-00146).

Please let me know if there are any other questions, thanks!
