

### **Narrative for #8**

Grande and Harris Broadband, a Texas-based provider of communications, negotiated an agreement to assign all of Harris Broadband's assets to Grande, including the referenced earth station. The transaction was consummated on October 1, 2021, and a post-close notice for this earth station was submitted to the FCC on October 29, 2021 by Grande. See File Number IBFS File No. SES-ASG-20211029-01763. There has been no change in Grande's organization, no transfer of control or financial responsibility since that post-close submission.
