

Narrative for #8

Radiate Holdings, L.P. (“Radiate”) and Stonepeak Associates IV LLC (“Stonepeak”) recently completed a transaction resulting in a transfer of control of several Radiate subsidiaries holding earth station registrations, including the earth station addressed in this renewal filing. The transaction was consummated on August 19, 2021, and a post-close notice for this receive-only earth station was submitted to the FCC on September 17, 2021 by Stonepeak. The transfer of control was acknowledged by the FCC in a public notice issued on October 5, 2021. *See* IBFS File No. SES-T/C-20210917-01580. As a result of the transaction, indirect control of this earth station was transferred to Stonepeak. Neither the direct holder of this receive-only earth station registration, nor any of the registrations’ operating specifications, has changed as a result of the transaction.
