

Re: Form 312-R Application for renewal of Satellite Earth Station

Vyvx, LLC, pursuant to Sections 25.110(b)(1) and 25.115(a)(1) of the Commission's Rules, is submitting with this letter an application on Form 312-R for renewal of the Commission assigned call sign E970415.

This application is intended to cover the facilities licensed under call sign E970415 (the "Station"), where the 30-day renewal window before expiration was missed. The earth station has remained under Frequency Protection by Comsearch and kept current with all licensed users in the shared uplink and downlink bands of operation.

Vyvx asks that the Commission process and grant this renewal application. The public interest will be served by a grant of this application, which will allow for continued service to Vyx's C-band clients.
