

Request for Reinstatement of Call Sign E980090

NBC Telemundo License LLC (“NBC Telemundo”) respectfully requests reinstatement of the expired earth station license associated with Call Sign E980090¹ pursuant to Section 25.163 of the Commission’s rules.² Due to an administrative error, however, NBC Telemundo inadvertently allowed the E980090 earth station license to expire before filing a renewal application. The continued operation of this earth station serves the public interest as it remains necessary to support NBC affiliate WNBC, licensed to New York, NY and is used for the distribution of news, entertainment, and public affairs programming between WNBC and the NBC network.
