**Re: Supplemental Letter Requesting Waiver of Section 25.121(e)
Call Sign E030154; File No. SES-RWL-INTR2018-04943**

Dear Ms. Dortch:

AT&T Corp. (“AT&T”), by its attorneys and pursuant to Section 1.3 of the Federal Communications Commission’s rules, hereby requests a waiver, to the extent necessary, of the timing requirement set forth in Section 25.121(e) for the above-referenced pending earth station renewal application. Under the Commission’s rules, “renewals of earth station licenses must be submitted on FCC Form 312R no earlier than 90 days, and no later than 30 days, before the expiration date of the license.”¹ Due to an inadvertent oversight, AT&T filed its renewal application outside this timing window. Good cause exists for waiver in this case because AT&T filed the renewal prior to the expiration date of the earth station license. In addition, AT&T will not operate the earth station beyond the current authorization’s expiration date until such time as the renewal has been approved. AT&T has put processes in place to ensure renewals are timely filed going forward.

Please contact the undersigned with any questions.

Sincerely,

/s/ Jennifer D. Hindin

Jennifer D. Hindin
