

Petition for Waiver of Section 25.121(e) for Earth Station E040250

This application respectfully requests a waiver of Section 25.121(e) so that the renewal for Temporary Fixed Earth Station E040250, set to expire, August 3, 2019, can be processed even though the licensee did not file its Form 312R renewal application at least 30 days prior to expiration. The licensee and its legal counsel are currently establishing revamped record-keeping systems that will prevent any future inadvertent oversights of the license renewal requirements set forth in Section 25.121(e).

The earth station is used in connection with providing service to viewers of WGBO-DT in the Chicago Television market. Because continued use of the Ku-Band earth station will serve the public interest and the licensee has taken prompt action as soon as it discovered that the 30-day prior to expiration filing deadline had been overlooked, the applicant hereby petitions the FCC to renew the registration authorization *nunc pro tunc*.
