FRN: 0013919345**

Dear Sir or Madam:

Gridley Cable, Inc. would like to reinstate our recently expired registration. The delay in registration is a result of trying to determine why the registration of additional antennas were not reflected on the IBFS site. In addition to reinstatement, Gridley Cable, Inc. would like the FCC to be aware of the following Earth Station Antenna Facilities additions in the table below. These additions were previously reported to the FCC in September of 2018 and again in May of 2019. However, it appears that a former employee misunderstood the appropriate method to report these additions and they were not actually filed but rather saved applications. However, our records do indicate a payment of \$210.00 was made to the FCC on our company credit card ending 2761 on October 9, 2018. In addition to the reinstatement of our registration and the addition of five antennas we ask that the site location be updated to 502 Eastern Drive, Gridley, IL 61744. This is an address correction not a change of address.
