

To whom it may concern at the International Bureau,

Regarding call sign E050278, through a typographical error in our records we thought this call sign expired at the same time as E050279 and were endeavoring to renew them at the same time. We did not realize until we started the renewal process that E050278 expires 14 days earlier.

We request Call Sign E050278 be renewed as we still have a need of this earth station and would like to keep using it.
